

# Stock Market Game Prize & Testimonials

<b>Name</b>	Joshua Oyesanya-Ryan
<b>Age</b>	12
<b>Type your school name</b>	St Francis Boy's College
<b>Choose date to collect Gift Voucher at Your School</b>	Wednesday, Nov 17, 2021 3:00 PM - 4:00 PM
<b>1. What are you enjoying the most about the Virtual Stock Market Game?</b>	I enjoy the wide diversification of companies to invest in and they replicate the real US Stock Exchange.
<b>2. Please list 2-3 key strategies used in the game, and how you anticipate applying them to real life experiences in the future.</b>	Two strategies that I used in the game are that: I buy stocks when the price drops and hold until it goes up again and I invest in businesses that I support. I anticipate applying these skills to real life in the future by buy real stock.
<b>3. Is there any feature of the game that you find confusing? If so, please provide specific examples.</b>	A feature that can be added to the game is an analysis of which stock is performing well and it wheater it is a buy or a sell. The game can also include a breakdown of the stock percentage in your stock portfolio and a return on investment percentage.
<b>4. What is the most valuable thing you learned (knowledge or skills)?</b>	The most valuable thing I learned is to be patient because it can take weeks until a stock goes up to make a profit.
<b>5. Overall, how can we improve this training?</b>	Students need support and education, holding meetings among students once a month to share information and a topic to strengthen understanding and application of the game would be useful.
<b>6. Testimonial</b>	I enjoy playing the WizdomCRM Virtual Stock Market Game so much! This game has incorporated learning with an exciting simulator. This has deepened my knowledge of the stock market and the companies traded on it. Getting to play in a stock market game without losing any real money brought a lot of investment strategies to light for me. I enjoy playing this game daily. Teaching financial literacy at an early age is an amazing way to build financial goals for future expenses such as college, cars, and houses. Now I

have a basic understanding of how the stock market works, becoming more financially intelligent. I would highly recommend playing this game as an excellent practice tool for making investments and trying out trading strategies.

**Parent: 1 minute video testimonial about the game and impact it has on your child**

WizdomCRM Family would like to thank you
