1. What are you enjoying the most about the Virtual Stock Market Game?	I enjoy playing with virtual money and seeing my money grow. I like the excitement of trading in stocks and winning prizes.
2. Please list 2-3 key strategies used in the game, and how you anticipate applying them to real life experiences in the future.	My strategy is premarket trades. Stock market analysis and Earnings Calendar
3. Is there any feature of the game that you find confusing? If so, please provide specific examples.	How can you sell stock that you do not own
4. What is the most valuable thing you learned (knowledge or skills)?	How to research profitable stocks and to read Earnings Calendar. How easy it is to earn a passive income. A new meaning for dedication
5. Overall, how can we improve this training?	Include videos explaining stock splits, reverse splits and IPOs. Include a close All button, include other stock exchange
6. Testimonial	I thought trading on the stock market was difficult to understand but after taking part in the stock market game I realise it wasn't difficult at all. I wish everyone could experience it. Winning my first million was exciting but winning my first billion was out of this world. All the research, late nights and early mornings are worth it.

Parent: 1 minute video testimonial about the game and impact it has on your child
